Heads up to Brad and Tom - will need you to review what Ben develops today for talking points for Mark's call with Congressional staffers tomorrow. I will forward when I receive something from Ben. Thanks.

Hey all,

I'm taking the lead on developing these talking points, and will draft something up for SUPR to take a look at and add to/edit.

Will need particular help with potential buffer zone work as part of the surface fire mitigation removal action.

Will share shortly.

Benjamin M. Washburn  
Public Affairs Specialist

Thanks.

I know many folks are booked

Let focus our update on the Surface Fire work.... If I can get a few bullets that describe our progress to date and what is in the order that deals with the "buffer" area that should work.

If we have any specifics that focus on work at the site, like pulling sediment samples, that is done or we have a firm date for we can add that.

Finally, Curtis, LaTonya and I can cover the call. IF someone from the team is available to sit in that's great but not mandatory.

Thanks.

Mark.

We will schedule the congressional call for Friday.

Thanks
